

Mr. Kim J. Carpenter, Ph.D.
Chief Executive Officer
County Executive Office
San Juan County New Mexico
100 South Oliver Drive
Aztec, New Mexico 87410

Dear Mr. Carpenter:

On behalf of the U.S. Environmental Protection Agency I want to thank you for taking me on a tour of the Emergency Operation Center and for all your efforts to coordinate among state and local stakeholders to ensure timely and accurate information of the release from Gold King Mine. I want to especially thank you for assisting in providing information to all residents at the Farmington Convention Center.

The EPA's primary objectives include working with federal, state, tribal and local authorities to make sure that people continue to have access to safe drinking water, ensure appropriate precautions are in place for recreational use and contact with river water, evaluate impacts to aquatic life and fish populations and stop the flow of contaminated water into the watershed at the Gold King Mine site.

Your efforts are appreciated as we continue to resolve all contamination issues from this site. EPA is sharing information as quickly as possible with the community as experts work to analyze any effects the spill may have on drinking water and public health.

The Honorable Tommy Roberts
Mayor of Farmington
800 Municipal Drive
Farmington, New Mexico 87401

Dear Mayor Roberts:

It was a pleasure meeting you on August 13, 2015. On behalf of the U.S. Environmental Protection Agency I want to thank you for your continued support for the EPA and your efforts in solving the environmental concerns over the release from Gold King Mine

The EPA's primary objectives include working with federal, state, tribal and local authorities to make sure that people continue to have access to safe drinking water, ensure appropriate precautions are in place for recreational use and contact with river water, evaluate impacts to aquatic life and fish populations and stop the flow of contaminated water into the watershed at the Gold King Mine site. EPA is sharing information as quickly as possible with the community as experts work to analyze any effects the spill may have on drinking water and public health.

The Honorable Sally Burbridge
Mayor of Aztec
201 West Chaco Street
Aztec, New Mexico 87410

Dear Mayor Burbridge:

It was a pleasure meeting you on August 13, 2015, at the San Juan Water Commission meeting. On behalf of the U.S. Environmental Protection Agency I want to thank you for your continued support for the EPA and your efforts in solving the environmental concerns over the release from Gold King Mine
